

# Rounding Rap

<p style="text-align: center;"><i>Round to the nearest 10</i></p> <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> <math display="block">\begin{array}{r} \underline{565} \\ \downarrow \end{array}</math> </div> <div style="text-align: center;"> <math display="block">\begin{array}{r} \underline{564} \\ \downarrow \end{array}</math> </div> </div>	<p>Find your place then look to the right.</p>
	<p>Ask the neighbor for one because money is tight.</p>
<div style="text-align: center;"> <math display="block">\begin{array}{r} \downarrow \\ \underline{565} \\ \underline{7} \end{array}</math> </div>	<p>If he's five or greater then there's one to share</p>
<div style="text-align: center;"> <math display="block">\begin{array}{r} \circledast \\ \underline{564} \\ \underline{6} \end{array}</math> </div>	<p>If he's 4 or less then there's no dough to spare.</p>
<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> <math display="block">\begin{array}{r} 565 \\ \underline{57} \end{array}</math> </div> <div style="text-align: center;"> <math display="block">\begin{array}{r} 564 \\ \underline{56} \end{array}</math> </div> </div>	<p>All those numbers in front stay tight</p>
<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> <math display="block">\begin{array}{r} \underline{565} \\ 570 \end{array}</math> </div> <div style="text-align: center;"> <math display="block">\begin{array}{r} \underline{564} \\ 560 \end{array}</math> </div> </div>	<p>Now it's time to break it down to the right Zero - Zero - Zero Zero -Zero</p>
